SUMMARY

Dedicated and proficient Programmer with nearly 2 years of hands-on experience in developing and designing dynamic web applications. Undergraduate with a bachelor's degree in Computer Science, eager to apply academic knowledge and skills gained through coursework and projects in a dynamic professional setting. Proficient in HTML, CSS, JavaScript, jQuery, PHP, MySQL, and Python. Passionate about both frontend and backend development with a keen interest in database management.

EXPERIENCE

Programmer Bitranet Pvt Ltd | Hyderabad, India

September 2022 – Present

- Played a key role in the development of a Parcel Management System web application using HTML, CSS, JavaScript, jQuery, PHP, and MySQL.
- Incorporated and ensured robust data validations using JavaScript and jQuery for HTML input fields.
- Created and designed database tables to store website data, such as user information, product information, and transaction history.
- Communicated with clients to understand their needs and requirements, translating those requirements into functional and technical specifications.
- Implemented static to dynamic web content based on client inputs, enhancing website interactivity and usability.
- Created mock-ups to demonstrate the proposed design and development of the website to clients, and received feedback to make necessary revisions.
- Successfully developed and maintained dynamic Content Management Systems (CMS) for various websites using HTML, CSS, JavaScript, jQuery, PHP, and MySQL.
- Conducted manual testing of web applications, debugging and resolving errors to maintain optimal performance and user satisfaction.
- Deployed code on the server.
- Maintained technical documentation to facilitate better understanding for clients and ensure smooth transitions for future updates.
- Led a team of three developers, coordinating tasks and ensuring project deadlines were met.
